

Bracketing

From the **Events panel** within a **Games**, right-click on the desired event, select **Setup**, and then **Define this event**. Using the **Event type** dropdown select the appropriate bracketed options (individual or team). Select **Save** to complete the update to the event's definitions.

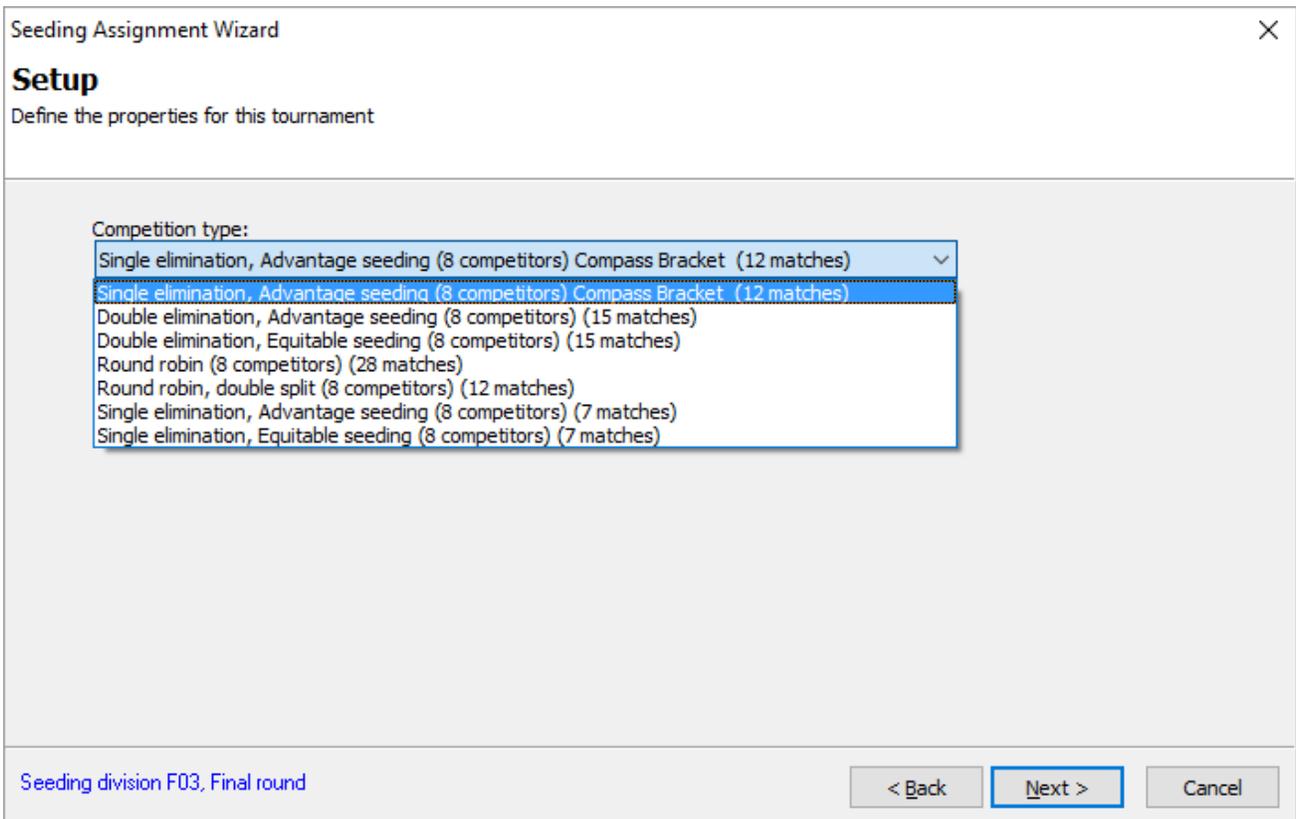

Then, from the **Events panel**, right-click on the desired event and select **Edit this event**.

First, you must **Division** your event (follow steps in **Divisioning Guide**).

Then, from the **Tools panel** on the left-hand side of the screen, select **Bracketing/tournaments**.

You will be presented with a list of divisions. You can seed divisions by right-clicking on the division and selecting **Seed this division**. This will launch the **Seeding Assignment Wizard**. Select **Next** and follow the prompts.

First, define the properties for the tournament by selecting the **Competition type** from the drop down. Select **Next** to continue.

Seeding Assignment Wizard ✕

Seeding Order

Rank the entrants in this division from best to worst

On the list to the right, use the up- and down-arrows to put your entrants in order by rank, with the highest-ranked entrant at the top.

You can right-click on the list to automatically rank by place or score.

Click the [Next] button when you're done.

Name	▲	Qualifying score
