Show scratched entrants Complain about Maximum Effort and valid score range violations

Selecting **Edit** shall present a pop-up screen where you can edit your selected individual's score.

The image shows a dialog box titled "AT 25M Run". It contains the following fields and controls:

- Bib:** A spinner control showing the value 105.
- Final div:** An empty text input field.
- Final score:** A text input field containing "00:00.00".
- Final lane:** A spinner control showing the value 2.
- Place:** A drop-down menu.
- Comments:** A large text area for entering notes.
- Buttons:** "Save" and "Cancel" buttons at the bottom right.

Once all of the scores have been entered, you can calculate the places by selecting **Calculate places** under the **Tools** panel. You may also override these places, if necessary, by using the **Place** drop-down for each individual.

Honest-effort: To have GMS automatically look for honest-effort violations, select the **Complain about honest-effort violations** box before **Calculate places**. Any entrant whose score is more than a fixed percentage better than their previous round score will be shown on screen and you will be given the option to mark any of them as **Disqualified – honest effort**. This option will not be visible if honest-effort is not enabled for this Games or event.
