## with Intellectual Disabilities Real Needs & Real Potential

Join Special Olympics Athletes and Best Buddies Ambassadors friends, teachers, coaches, and family members at a candlelight vigil to remind America of the capabilities of the largest disability population in the United States.

People with intellectual and developmental disabilities continue to be the most marginalized population in America. Special Olympics and Best Buddies will be spending February 8, 2012 reminding Congress that everyone matters when it comes to education, health, and employment opportunities. When decisions are being made about the future of the United States, all citizens need to be considered.
