

At the Michael Phelps Foundation, we are dedicated to growing the sport of swimming and promoting healthy and active lifestyles, especially for children. We created the *im* program to give your participants access to the very same instruction Michael Phelps was given when he was introduced to the sport of swimming.

If you are interested in implementing *im* with your Special Olympics Team, please take some time to look at the materials and contact your Sports Resource Director about attending an *im* Seminar.

With your dedication, we can impact the lives of so many Special Olympians throughout the world, and truly make a difference. It means so much to us that you are taking steps to help the Michael Phelps Foundation fulfill our mission.

Sincerely,

Michael Phelps Foundation Family
