

## Walking and Running Skills

Dear Family,

Do you remember playing Follow the Leader as a child? It's not just a fun game; it's an engaging way to develop children's **motor skills** and help them connect **with other people**. It's also one of several games in Young Athletes that we play to develop **walking and running skills**. As children develop these skills, it becomes easier for them to explore their environment. Walking and running skills also allow children to take part in many different recreational activities and sport games.

We've been working on these skills through a variety of activities, and having a lot of fun along the way. Some of our favorite Young Athletes activities involve walking or running to an object; completing an obstacle course; and running forward, backward, and sideways. We'd love for you to reinforce walking and running skills at home with your child. Follow the Leader is a perfect game for the whole family. Lead your child in walking slowly, marching and walking with arms out to the side. After a round or two, invite your child to take a turn as the leader. It's sure to be a big confidence booster!

Sincerely,

---

Teacher

Young Athletes activities develop self-confidence in children.

### Healthy Habits

Children love catchy songs, so why not use familiar tunes to encourage healthy habits? Try singing this song with your child to promote good hygiene.

#### Wash, Wash, Wash Your Hands

*Sung to "Row, Row, Row Your Boat"*

Wash, wash, wash your hands;

Wash the dirt away.

Before you eat, before you sleep

And after outdoor play.

### Great Gains

The benefits of Young Athletes activities are impressive. Children with intellectual disabilities who participated in the eight-week Young Athletes curriculum demonstrated seven months' development in motor skills. Children who did not participate showed a gain of three months' development.
