

Awards Requirement Estimator

GMS allows you to estimate the number of awards which will be needed for a Games by sport using the **Awards Requirement Estimator tool**.

To launch this tool, from within a **Games**, open the **Reports Panel** and select the **Awards Requirement Estimator link**.

Options

Method:

Safety factor (%): (all awards counts will be increased by this percentage)

Specifications

	# entrants	# events per entrant	max entrants per division	avg entrants per division
Athletics/Track and Field	124	2	6	4
Badminton	60	2	6	4
Basketball	156	2	6	4
Beach Volleyball	86	2	6	4
Bocce	80	2	6	4
Bowling	62	2	6	4
Cycling	80	2	6	4
Equestrian	48	2	6	4
Football/Soccer	182	2	6	4
Golf	54	2	6	4

Once launched, this tool allows you to customize the report to estimate the number of awards you should expect to award at your Games.

Method: Use this field to select which method GMS should use to calculate its awards estimations.

Options

Method:

- Use registered entrants in actual events and manual division counts
- Use registered entrants in actual events and manual division counts**
- Use registered entrants in actual events and actual divisioning
- Manually enter the number of people in each sport
- Use a previous games for numbers and adjust them according to this games' actual registration
- Use a previous games for numbers and adjust them according to manually entered registration
- Just show the actual awards issued for this games

Safety factor: Use this field to specify the percentage by which you would like GMS to inflate its estimations.

Specifications: This section displays the event specifications broken-out by sport. Depending on the method you choose, these numbers may differ.

Output options can be configured from the left-hand tools panel.

When configuration is complete, select **Print** to run report.
