

GMS: 2024 Athlete Forms – Certification Import Instructions

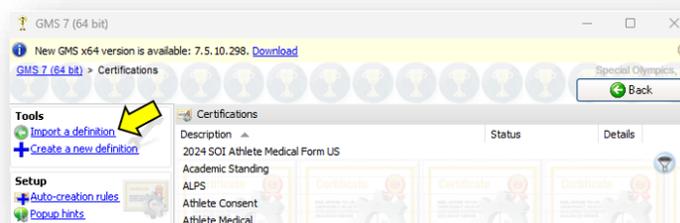

This documentation serves as a guide for users on setting up the latest Athlete Forms within the Games Management System (GMS) using the Certification Import Tool.

Importing Instructions

- **Step 1:** Save the newest form(s) within the same folder that your GMS application is saved. You can do this by opening the link to a form on the SOI GMS Learning Center Resources page and then right clicking in the screen and saving.
 - **Find the newest form(s) on the SOI GMS Learning Center Resources page at this [link](#).**
- **Step 2:** Open the GMS application. From the home page, under the **Setup** section, select the **Certifications** section.

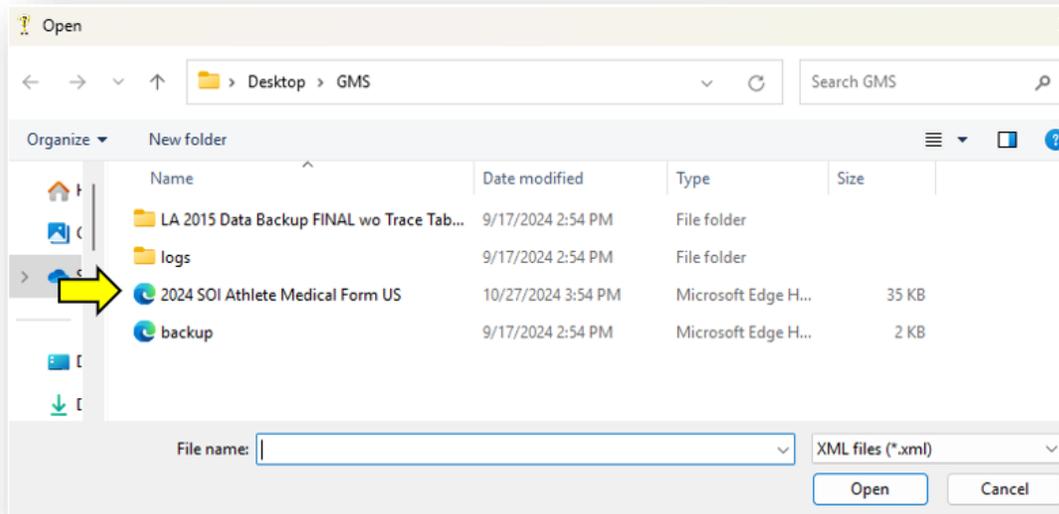

- **Step 3:** From within the **Certifications** section, select the **Import a definition option**, in the upper left corner under **Tools**.

- **Step 4:** After selecting the *Import a definition option*, a window will pop up asking you to select a file to open. Navigate in this window to your **GMS** application folder, then select and **Open** the form in which you want to import.

- **Step 5:** Once opened, the form page should be opened in **GMS** (see below). No edits needed, select the **Back** button on the top right corner of the page.

- **Step 6:** After pressing the Back button, you should be redirected to the main **Certifications** page. *You should now see the newly imported certification within your certifications list.* Select the **Save** button in the top right corner of the page to save this new certification.

Your new certification should now be available for use.
