Warm-Up Directions

A warm-up should be the first physical activity in every training session or competition. A good warm-up helps you to reach a state of physical and mental readiness.

A proper warm-up should include:
- Aerobic activity
- Dynamic stretching

The aerobic activity in a warm-down should increase your heart rate. Some aerobic activities are high knees, jumping jacks and a jog around the playing field.

After you complete the aerobic activity, you will want to dynamic stretch the different muscles you'll be using.

**HOW TO USE THIS GUIDE**
- Try to do about **15-20 repetitions** of each exercise.
- Many of these stretches can be **done in place or across the playing area**.
- Select a few exercises that focus on different muscles.
AEROBIC ACTIVITIES
Aerobic activities are whole body movements should last about 5 minutes and increase the heart rate. Select a few exercises from the list below:

- Butt Kicks
- Forward Jacks
- Frog Jumps
- High Knees
- Jumping Jacks
- Light Jog
- Side-to-Side Bouncing
- Side Shuffles

DYNAMIC STRETCHES
Dynamic stretches consist of active, controlled movements that take body parts through a full range of motion. If you don't have enough time, select a few that focus on the different muscles used in your sport:

- Arm Circles
- Arm Swings
- Forward Lunges
- Heel Walks
- Hip Circles
- Lateral Leg Swings
- Toe Walks
- Torso Twists
- Windmill Toe Touches
Butt Kicks

DIRECTIONS

- Walk or jog while kicking your heels up to touch or nearly touch your glutes.
- Quickly alternate legs. Keep arms bent at the elbows and swinging back to front.
- Start slowly with a walk and then speed up to a jog or run.
- This exercise can be done in place or while moving around an activity space.

Featuring Special Olympics athlete, Novie Craven
Forward Jacks

DIRECTIONS

- Stand with one foot in front of the other and your arms down by your sides.
- Jump up and switch your feet. Swing your arms sideways over your head.
- Jump to bring your arms back to your sides and switch your legs back to the starting position.

Featuring Special Olympics Chief Inspiration Officer, Loretta Claiborne
Frog Jumps

DIRECTIONS

• Start by standing with your feet apart.
• Bend at your knees and hips to squat down. Touch the floor with your hands.
• Jump straight up in the air with your arms up.
• Land in a squat with your hands touching the floor.
High Knees

DIRECTIONS

- Walk or jog while raising your bent knee up to the level of your hip or higher.
- Quickly alternate legs. Keep arms bent at the elbows and swinging back to front.
- Start slowly with a walk/march and then speed up to a jog or run.
- This exercise can be done in place or while moving around an activity space.
Light Jog

DIRECTIONS

• Lightly jog around your training area.
• Make sure you are also swinging your arms the whole time.
DIRECTIONS

- Jump up and spread your legs apart as you swing your arms over your head.
- Jump again and bring your arms back to your sides and your legs together.
Side-to-Side Bouncing

DIRECTIONS

- Start by standing on your right foot with your right knee bent.
- Leap as far as you can to your left starting with your left leg. Land on your left foot with your knee slightly bent.
- Make sure that you are balanced. Now leap as far as you can to your right starting with your right leg. Land on your right foot with your knee slightly bent.
- Continue going from side to side.
DIRECTIONS

- Bend the knees slightly and hop as high as you can to one side then the other side.

NOTE: You can also hop forward to backward or hop in place.
Arm Circles

DIRECTIONS

- Stand tall with your arms straight down. Slowly make large circles with your arms in the forward direction.
- Repeat exercises in the backward direction.
Arm Swings

DIRECTIONS

- Start in a standing position with your feet apart and stretch your arms out to the sides making a “T” shape.
- Cross your arms in the front of the body and reach as far back as possible to touch your shoulders or back.
- Uncross your arms and return to your starting position.
Forward Lunges

DIRECTIONS

- Stand with your feet shoulder width apart and put your hands on your hips.
- Take a big step forward with your right foot and bend both knees so that your left knee is almost touching the ground.
- Push off your left leg and return to the starting position. Repeat with your left leg forward.
Heel Walks

DIRECTIONS

- Start in a standing position.
- Shift your weight back onto your heels.
- Lift your toes off the ground.
- Stay on your heels and walk forward for 15 - 20 steps.

Featuring Special Olympics athlete, Justin Hunsinger
Hip Circles

**DIRECTIONS**

- Start in a standing position with your feet apart and knees slightly bent.
- Place your hands on your hips.
- Slowly rotate your hips, making big circles in one direction. Do not move your feet.
- Repeat the exercise in the other direction.
Lateral Leg Swings

DIRECTIONS

- Start in a standing position and hold onto something stable (e.g., wall, chair, fence) lightly with both hands.
- Swing/raise one leg out to the side with your foot flexed and then swing that same leg across your body in front of the standing leg.
- Repeat the exercises with the other leg.
Toe Walks

DIRECTIONS

• Start in a standing position.
• Shift your weight onto the balls of your feet.
• Raise your heels off the ground to stand on your tiptoes.
• Stay on your toes and walk forward.

Featuring Special Olympics athlete, Justin Hunsinger
Torso Twists

DIRECTIONS

- Start in a standing position with your feet apart.
- Stretch your arms out to the sides making a “T” shape.
- While keeping your arms out straight and your hips facing forward, turn your upper body and head slowly to one side, return to center, then turn to the other side.
**DIRECTIONS**

- Start in a standing position with your feet apart and stretch your arms out to the sides making a “T” shape.
- Reach one hand across your body and tap the outside of the opposite foot. Keep your arms and legs as straight as possible.
- Return to the upright starting position with arms out to sides. Reach your other hand across and tap the outside of the opposite foot.
Benefits of a Warm-Up

A warm-up should be the first physical activity in every training session or competition. A good warm-up helps you to reach a state of physical and mental readiness.

Physical and Mental Benefits

- Increase heart rate
- Increase breathing rate
- Increase body and muscle temperature
- Greater blood flow to the active muscles
- Shift focus from life to sport
- Connects the mind and the body
