DYNAMIC WARM-UP GUIDE

ROLLER SKATING

Special Olympics
This resource was supported by cooperative agreement #NU27DD001156 from the U.S. Centers for Disease Control and Prevention (CDC). Its contents are the responsibility of Special Olympics and do not necessarily represent the view of CDC.
A warm-up should be the first physical activity in every training session or competition. A good warm-up helps you to reach a state of physical and mental readiness.

A proper warm-up should include:
- Aerobic activity
- Dynamic stretching

The aerobic activity in a warm-down should increase your heart rate. Some aerobic activities are high knees, jumping jacks and a jog around the playing field.

After you complete the aerobic activity, you will want to dynamic stretch the different muscles you'll be using.

**HOW TO USE THIS GUIDE**
- Try to do about **15-20 repetitions** of each exercise.
- Many of these stretches can be **done in place or across the playing area**.
- Select a few exercises that **focus on different muscles**.
Sample Warm-Up

AEROBIC ACTIVITIES
Aerobic activities are whole body movements that should last about 5 minutes and increase the heart rate. Select a few exercises from the list below:

- Calf Raises
- Forward Jacks
- Jog in Place
- Jumping Jacks

DYNAMIC STRETCHES
Dynamic stretches consist of active, controlled movements that take body parts through a full range of motion. If you don’t have enough time, select a few that focus on the different muscles used in your sport:

- Forward Leg Swings
- Lateral Leg Swings
- Power Skips
- Rotational Jumps
- Torso Twists
- Walking High Kicks
Calf Raises

DIRECTIONS

• Stand tall with your feet as wide as your hips. Shift your weight onto the balls of your feet.
• Raise your heels off the ground to stand on your tiptoes. Pause in this position for 3 seconds.
• Lower your heels back down to the ground.

Featuring Special Olympics athlete, Justin Hunsinger
Forward Jacks

DIRECTIONS

• Stand with one foot in front of the other and your arms down by your sides.
• Jump up and switch your feet. Swing your arms sideways over your head.
• Jump to bring your arms back to your sides and switch your legs back to the starting position.
Jog in Place

DIRECTIONS

• Jog in place.
• Make sure you are also swinging your arms the whole time.
Jumping Jacks

DIRECTIONS

• Jump up and spread your legs apart as you swing your arms over your head.
• Jump again and bring your arms back to your sides and your legs together.
Forward Leg Swings

DIRECTIONS

• Start in a standing position with your arms out to the sides for balance, or hold onto something stable (e.g., wall, chair, fence) with one hand.
• Swing/raise one leg out in front and then swing it back behind you. Try to keep the swinging leg straight.
• Repeat the exercises with the other leg. If holding on for balance, then switch hands.

Featuring Special Olympics athlete, Jayna Neal.
Lateral Leg Swings

DIRECTIONS

- Start in a standing position and hold onto something stable (e.g., wall, chair, fence) lightly with both hands.
- Swing/raise one leg out to the side with your foot flexed and then swing that same leg across your body in front of the standing leg.
- Repeat the exercises with the other leg.

Featuring Special Olympics athlete, Garrett Barnes
Power Skips

DIRECTIONS

- Stand with your feet hip width apart.
- Lift your right knee and spring up off your left foot, hopping into the air.
- Switch sides. Lift your left knee and spring up off your right foot, hopping into the air.
- Continue in a “skipping” motion and swing arms back to front.

Featuring Special Olympics athlete, Joe Wu
Rotational Jumps

DIRECTIONS

• Stand with your feet together and knees bent.
• Jump to the left and turn so your hips and toes point left. Then jump to the right and turn so your hips and toes point right.
• Keep jumping and rotating your body.
Torso Twists

DIRECTIONS

- Start in a standing position with your feet apart.
- Stretch your arms out to the sides making a “T” shape.
- While keeping your arms out straight and your hips facing forward, turn your upper body and head slowly to one side, return to center, then turn to the other side.

Featuring Special Olympics athlete, Jayna Neal
Walking High Kicks

DIRECTIONS

• With a tall posture and straight back, walk forward and kick one leg out in front as high as you can.
• Keep arms out to your sides or in front, whichever is better to keep your balance.
• Switch sides and kick the other leg in front of you.
• Continue to alternate legs as you walk forward.
Benefits of a Warm-Up

A warm-up should be the first physical activity in every training session or competition. A good warm-up helps you to reach a state of physical and mental readiness.

**Physical and Mental Benefits**

- Increase heart rate
- Increase breathing rate
- Increase body and muscle temperature
- Greater blood flow to the active muscles
- Shift focus from life to sport
- Connects the mind and the body
