DYNAMIC WARM-UP GUIDE

SHORT TRACK SPEED SKATING

Special Olympics
This resource was supported by cooperative agreement #NU27DD001156 from the U.S. Centers for Disease Control and Prevention (CDC). Its contents are the responsibility of Special Olympics and do not necessarily represent the view of CDC.
A warm-up should be the first physical activity in every training session or competition. A good warm-up helps you to reach a state of physical and mental readiness.

A proper warm-up should include:
- Aerobic activity
- Dynamic stretching

The aerobic activity in a warm-down should increase your heart rate. Some aerobic activities are high knees, jumping jacks and a jog around the playing field.

After you complete the aerobic activity, you will want to dynamic stretch the different muscles you'll be using.

**HOW TO USE THIS GUIDE**
- Try to do about 15-20 repetitions of each exercise.
- Many of these stretches can be done in place or across the playing area.
- Select a few exercises that focus on different muscles.
Sample Warm-Up

AEROBIC ACTIVITIES
Aerobic activities are whole body movements that should last about 5 minutes and increase the heart rate. Select a few exercises from the list below:
- Fast Feet
- Forward Jacks
- Light Jog
- Side-to-Side Bouncing

DYNAMIC STRETCHES
Dynamic stretches consist of active, controlled movements that take body parts through a full range of motion. If you don’t have enough time, select a few that focus on the different muscles used in your sport:
- Arm Swings
- Forward Leg Swings
- Hip Circles
- Lateral Leg Swings
- Single Leg Line Hops
- Toe Walks
- Walking High Kicks
- Windmill Toe Touches
Fast Feet

DIRECTIONS

- Stand with your feet shoulder width apart and your knees bent.
- Put your arms at your sides with elbows bent.
- Rise to the balls of your feet and run in place as fast as possible.
- Keep your feet moving quickly.

Featuring Special Olympics athlete, Joe Wu
Forward Jacks

DIRECTIONS

- Stand with one foot in front of the other and your arms down by your sides.
- Jump up and switch your feet. Swing your arms sideways over your head.
- Jump to bring your arms back to your sides and switch your legs back to the starting position.
Light Jog

DIRECTIONS

• Lightly jog around your training area.
• Make sure you are also swinging your arms the whole time.
Side-to-Side Bouncing

DIRECTIONS

- Start by standing on your right foot with your right knee bent.
- Leap as far as you can to your left starting with your left leg. Land on your left foot with your knee slightly bent.
- Make sure that you are balanced. Now leap as far as you can to your right starting with your right leg. Land on your right foot with your knee slightly bent.
- Continue going from side to side.
DIRECTIONS

• Start in a standing position with your feet apart and stretch your arms out to the sides making a “T” shape.
• Cross your arms in the front of the body and reach as far back as possible to touch your shoulders or back.
• Uncross your arms and return to your starting position.
Forward Leg Swings

DIRECTIONS

- Start in a standing position with your arms out to the sides for balance, or hold onto something stable (e.g., wall, chair, fence) with one hand.
- Swing/raise one leg out in front and then swing it back behind you. Try to keep the swinging leg straight.
- Repeat the exercises with the other leg. If holding on for balance, then switch hands.
Hip Circles

DIRECTIONS

- Start in a standing position with your feet apart and knees slightly bent.
- Place your hands on your hips.
- Slowly rotate your hips, making big circles in one direction. Do not move your feet.
- Repeat the exercise in the other direction.
**Lateral Leg Swings**

**DIRECTIONS**

- Start in a standing position and hold onto something stable (e.g., wall, chair, fence) lightly with both hands.
- Swing/raise one leg out to the side with your foot flexed and then swing that same leg across your body in front of the standing leg.
- Repeat the exercises with the other leg.
DIRECTIONS

- Find, draw or imagine a line on the ground in front of you.
- Lift your right foot in the air and bend the knee.
- Facing the line, hop over the line, forward and back for 10 repetitions.
- Stop and move your feet so that the line is to the side of your body. Standing on the left foot, hop laterally over the line, side to side for 10 repetitions.
- Repeat this exercise on the other side by hopping on your right foot.
Toe Walks

DIRECTIONS

- Start in a standing position.
- Shift your weight onto the balls of your feet.
- Raise your heels off the ground to stand on your tiptoes.
- Stay on your toes and walk forward.

Featuring Special Olympics athlete, Justin Hunsinger
Walking High Kicks

DIRECTIONS

• With a tall posture and straight back, walk forward and kick one leg out in front as high as you can.
• Keep arms out to your sides or in front, whichever is better to keep your balance.
• Switch sides and kick the other leg in front of you.
• Continue to alternate legs as you walk forward.
Windmill Toe Touches

DIRECTIONS

• Start in a standing position with your feet apart and stretch your arms out to the sides making a “T” shape.
• Reach one hand across your body and tap the outside of the opposite foot. Keep your arms and legs as straight as possible.
• Return to the upright starting position with arms out to sides. Reach your other hand across and tap the outside of the opposite foot.
Benefits of a Warm-Up

A warm-up should be the first physical activity in every training session or competition. A good warm-up helps you to reach a state of physical and mental readiness.

Physical and Mental Benefits

- Increase heart rate
- Increase breathing rate
- Increase body and muscle temperature
- Greater blood flow to the active muscles
- Shift focus from life to sport
- Connects the mind and the body
